

CITY COUNCIL
ATLANTA, GEORGIA

01-0-1357
Z-01-75

A Substitute Ordinance
By: Zoning Committee

AN ORDINANCE TO AMEND SECTION 16-25.002(3)(i)(iv), ENTITLED "SPECIAL USE PERMITS, GENERAL," *OTHER PERMISSIBLE ANTENNAS* TO AUTHORIZE THE DIRECTOR OF THE BUREAU OF PLANNING TO ISSUE A SPECIAL ADMINISTRATIVE PERMIT FOR APPLICANTS WHO SEEK TO USE EXISTING ANTENNAS FOR ADDITIONAL OR NEW SERVICES; TO AMEND SECTIONS 16-03.005 THROUGH 16-19D TO CONFORM WITH THE AMENDMENT TO SECTION 16-25.002(3)(i)(iv), TO CORRECT THE ANTENNA REGULATIONS IN THE I-1 AND I-2, SPI-1, and SPI-11 DISTRICTS, AND FOR OTHER PURPOSES.

NOW THEREFORE, the Council of the City of Atlanta, Georgia hereby ordains the following:

Section I. That a new Section 16-25.002(3)(i)(iv)(k) shall be added which reads:

The director of the bureau of planning may issue a special administrative permit in accordance with section 16-25.004 for new or additional uses utilizing existing antennas, where the height of the antenna is not to be increased, provided that, in both instances, such antenna is determined by the director to satisfy the requirements set forth in subsections (a) through (e) above.

Section II. That Section 16-03.005(1)(i) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures, and 2) *new or additional uses of existing structures as contemplated by section 16-25.002(3)(i)(iv)(k).*

Section III. That Section 16-03.005(2)(b) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, and *new or additional uses of existing structures as contemplated by section 16-25.002(3)(i)(iv)(k).*

Section IV. That Section 16-04.005(1)(i) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures, *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section V. That Section 16-04.005(2)(b) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section VI. That Section 16-04A.005(1)(g) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section VII. That Section 16-04A.005(2)(b) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section VIII. That Section 16-05.005(1)(i) be amended to read:

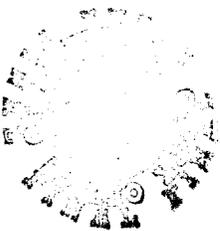

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section IX. That Section 16-05.005(2)(b) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section X. That Section 16-05A.005(1)(g) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XI. That Section 16-05A.005(2)(b) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XII. That Section 16-06.005(1)(i) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XIII. That Section 16-06.005(2)(b) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XIV. That Section 16-06A.005(1)(i) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XV. That Section 16-06A.005(2)(b) be amended to read:

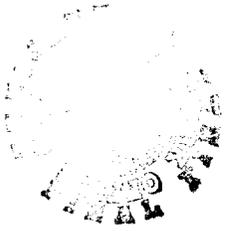

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XVI. That Section 16-06B.005(1)(i) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XVII. That Section 16-06B.005(2)(b) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design

mounting structures, *and new or additional uses of existing structures* as contemplated by *section 16-25.002(3)(i)(iv)(k)*.

Section XVIII. That Section 16-07.005(1)(i) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XIX. That Section 16-07.005(2)(c) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XX. That Section 16-08.005(1)(h) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXI. That Section 16-08.005(2)(c) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXII. That Section 16-09.005(1)(a) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and 2) new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXIII. That Section 16-09.005(2)(d) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXIV. That Section 16-10.005(1)(f) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and* 2) *new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXV. That Section 16-10.005(2)(d) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXVI. That Section 16-11.005(1)(f) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and* 2) *new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXVII. That Section 16-11.005(2)(d) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXVIII. That Section 16-12.005(1)(e) be amended to read:

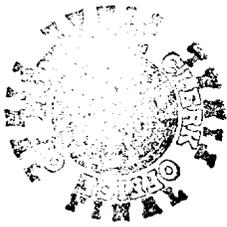

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures *and* 2) *new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXIX. That Section 16-12.005(2)(d) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXX. That Section 16-13.005(1)(e) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1)

alternative design mounting structures *and* 2) *new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXXI. That Section 16-13.005(2)(d) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section XXXII. That Section 16-14.005(2) be amended to add:

(d) New or additional uses of existing broadcasting towers and line-of-sight relay devices for telephonic, radio, or television communications that are required to get a special use permit as contemplated by section 16-14.005(1)(h).

Section XXXIII. That Section 16-15.005(2) be amended to add:

(d) New or additional uses of existing broadcasting towers and line-of-sight relay devices for telephonic, radio, or television communications that are required to get a special use permit as contemplated by section 16-15.005(1)(g).

Section XXXIV. That Section 16-16.005(2) be amended to add:

(b) New or additional uses of existing broadcasting towers and line-of-sight relay devices for telephonic, radio, or television communications that are required to get a special use permit as contemplated by section 16-16.005(1)(h).

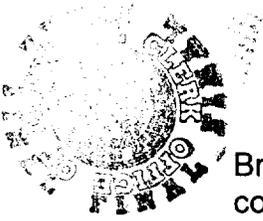

Section XXXV. That Section 16-17.005(2) be amended to add:

(b) New or additional uses of existing broadcasting towers and line-of-sight relay devices for telephonic, radio, or television communications that are required to get a special use permit as contemplated by section 16-16.005(1)(s).

Section XXXVI. That Section 16-16.003 (3), which currently reads,

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within an industrial district, and when such towers or devices are greater than 200 feet in height, when located a distance which is less than or equal to the height of the tower or device from a residential district or residential use which is not in an industrial district.

Shall be replaced in its entirety by the following paragraph:

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within an industrial district, and when such towers or devices are greater than 200 feet in height, when located a distance which is *greater* than or equal to the height of the tower or device from a residential district or residential use which is not in an industrial district.

Section XXXVII. That Section 16-17.003 (3), which currently reads,

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within an industrial district, and when such towers or devices are greater than 200 feet in height, when located a distance which is less than or equal to the height of the tower or device from a residential district or residential use which is not in an industrial district.

Shall be replaced in its entirety by the following paragraph:

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within an industrial district, and when such towers or devices are greater than 200 feet in height, when located a distance which is *greater* than or equal to the height of the tower or device from a residential district or residential use which is not in an industrial district.

Section XXXVIII. That Section 16-18A.003(2), which currently reads,

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within an industrial district, and when such towers or devices are greater than 200 feet in height, when located a distance which is less than or equal to the height of the tower or device from a residential district or residential use which is not in an industrial district.

shall be replaced in its entirety by the following paragraph:

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within *the SPI-1* district, and when such towers or devices are greater than 200 feet in height, when located a distance which is *greater* than or equal to the height of the tower or device from a residential district or residential use which is not in *the SPI-1* district.

Section XXXIX. That Section 16-18A.005(1)(h), which currently reads,

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within an industrial district, and when such towers or devices are greater than 200 feet in height, when located a distance which is less than or equal to the height of the tower or device from a residential district or residential use which is not in an industrial district.

shall be replaced in its entirety by the following paragraph:

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located 200 feet or more from any off-site residential districts or residential use not located within *the SPI-1* district, and when such towers or devices are greater than 200 feet in height, when located a distance which is less than or equal to the height of the tower or device from a residential district or residential use which is not in *the SPI-1* district.

Section IL. That Section 16-18A.005(2) be amended to add:

(g) New or additional uses of existing broadcasting towers and line-of-sight relay devices for telephonic, radio, or television communications that are required to get a special use permit as contemplated by section 16-18A.005(1)(h).

Section ILI. That Section 16-18K.004(2)(d)(1)(i) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures, and 2) *new or additional uses of existing structures as contemplated by section 16-25.002(3)(i)(iv)(k).*

Section ILII. That Section 16-18K.004(2)(d)(2) be amended to add:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, and *new or additional uses of existing structures as contemplated by section 16-25.002(3)(i)(iv)(k).*

Section ILIII: That Section 16-18K.004(3)(d)(1)(ii) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures, and 2) *new or additional uses of existing structures as contemplated by section 16-25.002(3)(i)(iv)(k).*

Section ILIV. That Section 16-18K.004(3)(d)(2) be amended to add:

(ii) Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section ILV. That Section 16-18M.007(1) be amended to read:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications greater than 70 feet in height, except 1) alternative design mounting structures, *and 2) new or additional uses of existing structures as contemplated by section 16-25.002(3)(i)(iv)(k).*

Section ILVI. That Section 16-18M.007(2) be amended to add:

(e) Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications 70 feet or less in height, alternative design mounting structures, *and new or additional uses of existing structures* as contemplated by section 16-25.002(3)(i)(iv)(k).

Section ILVII: That Section 16-18O.028(w)(ii), which currently reads,

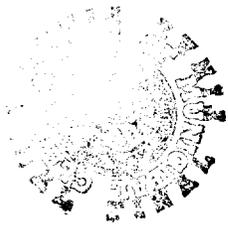

Once relocated or substituted, the relocated or substituted tower or device is located two hundred (200) feet or more from any off-site residential districts or residential uses not located within an industrial district, or, if such tower or device is greater than two hundred (200) feet in height, so long as such tower or device is located at least a distance which is less than or equal to the height of the tower or device from a residential district or residential use which is not in an industrial district.

shall be replaced in its entirety by the following paragraph:

Once relocated or substituted, the relocated or substituted tower or device shall be located 200 feet or more from any off-site residential districts or residential use not located within *the SPI-15* district, and when such tower or device is greater than 200 feet in height, when located a distance which is *greater* than or equal to the height of the tower or device from a residential district or residential use which is not in *the SPI-15* district.

Section ILVIII. That Section 16-18O.028(3), which currently reads:

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located two hundred (200) feet or more from any off-site residential districts or residential uses not located within an industrial district and with the exception of such uses permitted in Section 16-18O.028(1)(w), and when such towers or devices are greater than two hundred (200) feet in height, when located a distance which is less than or equal to the height of the tower or

device from a residential district or residential use which is not in an industrial district.

shall be replaced in its entirety by the following paragraph:

Broadcasting towers, line-of-sight relay devices for telephonic, radio or television communications when located two hundred (200) feet or more from any off-site residential districts or residential uses not located within *the SPI-15 district* and with the exception of such uses permitted in Section 16-18O.028(1)(w), and when such towers or devices are greater than two hundred (200) feet in height, when located a distance which is less than or equal to the height of the tower or device from a residential district or residential use which is not in *the SPI-15 district*.

Section ILIX That Section 16-19A.003(3), which currently reads:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)h(iv)(i).

shall be replaced in its entirety by the following paragraph:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)i(iv)(i).

Section L. That Section 16-19B.003(15), which currently reads:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)h(iv)(i).

shall be replaced in its entirety by the following paragraph:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)i(iv)(i).

Section LI. That Section 16-19C.003(14), which currently reads:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)h(iv)(i).

shall be replaced in its entirety by the following paragraph:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)i(iv)(i).

Section LII. That Section 16-19D.003(11), which currently reads:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)h(iv)(i).

shall be replaced in its entirety by the following paragraph:

Broadcasting towers and line-of-site relay devices for telephonic, radio or television communications as contemplated by section 16-25.002(3)i(iv)(i).

Section LIII. That Section 16-25.002(3)(iv)(d), which currently reads,

The height of each such antenna shall be regulated and limited in relation to the following: proximity to residential structures and residential district boundaries; the surrounding topography; the surrounding tree coverage and foliage; and the design of the antenna, with particular reference to design characteristics which have the effect of reducing or eliminating visual obtrusiveness. In no event, however, shall any such antenna exceed the minimum height necessary to accomplish its intended function as certified by an engineer licensed by the Federal Communications Commission. Said certification shall be the responsibility of the applicant and shall be submitted to the City of Atlanta Bureau of Planning at the time application for said special use permit is made. Further, under no circumstances shall any such antenna exceed 200 feet in height as measured from existing grade. Equipment and structure related to such antennas shall not exceed the height limitation specified in the zoning district in which the property is located.

shall be replaced in its entirety with the following paragraph:

The height of each such antenna shall be regulated and limited in relation to the following: proximity to residential structures and residential district boundaries; the surrounding topography; the surrounding tree coverage and foliage; and the design of the antenna, with particular reference to design characteristics which have the effect of reducing or eliminating visual obtrusiveness. In no event, however, shall any such antenna exceed the minimum height necessary to accomplish its intended function as certified by a *registered* engineer licensed by the *State of Georgia*. Said certification shall be the responsibility of the applicant and shall be submitted to the City of Atlanta Bureau of Planning at the time application for said special use permit is made. Further, under no circumstances shall any such antenna exceed 200 feet in height as measured from existing grade. Equipment and structure related to such antennas shall not exceed the height limitation specified in the zoning district in which the property is located.

Section LIV. That Section 16-25.002(3)(iv)(j), which currently reads:

Any application for a special administrative permit pursuant to paragraphs (f) and (g) above shall be referred by the bureau of planning to the appropriate to the appropriate neighborhood planning unit (NPU) for their review and comment with regard to the regulations, standards and criteria set for in paragraphs (a) through

(e) above. Notwithstanding the provisions of section 16-25.004(3), the director of the bureau of planning shall decide on any such application within 45 days of said application. Such 45-day time period does not begin until all required information is provided and is complete.

shall be replaced in its entirety with the following paragraph:

Any application for a special administrative permit pursuant to paragraphs (h) and (i) above shall be referred by the bureau of planning to the appropriate neighborhood planning unit (NPU) for *its* review and comment with regard to the regulations, standards and criteria set for in paragraphs (a) through (e) above. Notwithstanding the provisions of section 16-25.004(3), the director of the bureau of planning shall decide on any such application within 45 days of said application. Such 45-day time period does not begin until all required information is provided and is complete.

Section LV. All ordinances or parts of ordinances in conflict with this ordinance are hereby repealed.
