## PROFESSIONAL EXPERIENCE

### **INDIPENDENT CONSULTANT, Atlanta, GA**

**2003 – 2013**

Since leaving Fujitsu Consulting, have done IT and accounting consulting work for and investment partnership and for the local county political party. For the investment partnership, my role includes IT support for applications and hardware, accounting and bookkeeping, various research projects, and administrative tasks. For the local county political party, my roles include treasurer, chief financial and administrative officer, and project manager for various special endeavors.

### **FUJITSU CONSULTING, Atlanta, GA**

**1995 – 2003**

#### **Senior Consultant – Quality Assurance and Project Management**

In almost eight years at Fujitsu Consulting, and predecessor companies, domestic and international assignments have included: WorldCom International (United Kingdom), GTE Wireless (now Verizon Wireless), Powertel (now T-Mobile), MetLife Financial Services Group, BellSouth, and British Telecom Information Technology (IT) Development.

- Overall planning, preparation, and conduct of tests, and re-testing of enhancements to WorldCom International's landline Customer Service and Billing application (CSB) that operates in 7 European countries. Created strategic test plans, wrote and executed test scripts, trained new test team members, prepared status reports, and conducted follow-up reviews.
- Planned and coordinated the documentation, testing, and status reporting of business application systems (billing, pre-paid accounting, and accounts receivable) of two major cellular phone service providers (GTE Wireless and BellAtlantic) that were merging. A Department of Justice order required the sale of certain operating properties in order for the merger to proceed. Developed an application in Visual Basic and Excel that removed unnecessary data from accounts receivable reports before they were presented to the buyers of the properties. Replaced a manual procedure that consumed six hours per report. Created a time tracking and reporting application in Visual Basic and Excel for project.
- Created the standards documents for Year 2000 Remediation and testing for Powertel (now T-Mobile), and managed the engagement for the firm. Researched and wrote the Year 2000 Remediation Project Plans and Test Plans for the critical business applications. Evaluated and recommended test tools for project.
- Created all the Year 2000 test plans for MetLife's Financial Services Group, that were used as examples by the Y2K Office for the other organizations in MetLife.
- Overall test planning, test execution, and defect correction of the Preferred Interconnect Carrier (PIC) application for BellSouth. Used Network General Corporation's (NGC) Sniffmaster for Windows to verify test results.
- Wrote strategic test plans and detailed test scripts, executed tests and, coordinated of re-test of corrections to BellSouth's Outside Plant Construction Management System (OSPCM).

**CHARLES T. WINGO****Page 2**

- Led effort to implement independent, automated testing program for British Telecom IT's order-entry and inventory management client/server application using SQA TeamTest.
