**Background:**

Approval for the Mayor to execute an Agreement with the Atlanta Airlines Terminal Corporation (AATC) for the Interactive Directories for Central Passenger Terminal Complex (CPTC) project. This project will replace the existing static message directories in the North and South Terminal and Concourses "T" through "E" with interactive directories. These directories will be similar to the ones currently installed in the Maynard Holbrook Jackson, Jr. International Terminal. In total, forty six (46) interactive directories will be installed

through this scope of work. The Terminals will receive eight (8) directories and Concourses “T” through “D” will receive three (3) or four (4) each. Concourse “E” will receive six (6) and the APM train level will receive twelve (12) directories.

The existing static directories are expensive to maintain and time consuming to keep up to date. Interactive directories will allow Hartsfield-Jackson Atlanta International Airport and its customers to stay more informed and current with changes such as the recent tenant and concession changes. Existing static directories are location specific; the interactive directories will allow passenger to look up information at any location in the airport. They are more user friendly and can send directions and information directly to passenger smart phones.
