**INTERGOVERNMENTAL AGREEMENT REGARDING
800 MHZ RADIO SYSTEM USER LICENSE**

This System User License Agreement (the “License Agreement”) is made and entered into on this ____ day of _____, _____, between the City of Atlanta (“COA”), Georgia, a municipal corporation chartered pursuant to the laws of the State of Georgia, and the _____, located in the State of Georgia, (“User”) (collectively, the “Parties”).

RECITALS

Whereas, the COA is the sole owner and operator of an 800 MHz radio system (the “COA System”); and

Whereas, numerous COA departments, including the Police, Fire and Rescue, Public Works, Watershed, and General Services Administration, are presently users on the System; and

Whereas, the COA System has additional capacity that can support additional subscriber units; and

Whereas, User desires to upgrade its ability to communicate within its own jurisdiction and with the COA; and

Whereas, it is desirable to have a unified system that includes User on the COA System, which furthers the goal of protecting the citizens of both the COA and User by facilitating radio interoperability between COA and User; and

Whereas, User is designated by the Department of Human Resources (hereinafter, “DHR”) as the Emergency Ambulance Zone Provider for the City of Atlanta within Fulton County; and

Whereas, COA and User desire to enter into an agreement that will be mutually beneficial to the Parties.

NOW, THEREFORE, for and in consideration of the mutual promises and covenants contained herein, the COA agrees to grant to User a revocable, non-transferable license in accordance with the terms set forth below and User agrees to operate in accordance with the terms set forth below.

- 1. Use of the System:** User shall have the right to access the COA System through use of the number and type of subscriber units as set forth on Schedule A, as amended from time to time in accordance with the terms of this License Agreement. User will limit the number of all subscriber units including, but not limited to, mobile, portable, and console, in compliance with Schedule A. As part of the User’s use of the COA System, the COA agrees to create the talk groups as identified on Schedule B.

Attachment: legis-package (14-R-3018 : Resolution to execute various 800MHz Radio System user license agreements)

2. **Term:** The term of this Agreement shall be for five (5) years, with five (5) additional options of one (1) year renewals at the COA's sole discretion beginning on the effective date above.
3. **Compensation:** User shall pay to COA compensation in accordance with the terms set forth on Schedule C. User will pay a late fee of one percent (1%) per month OR eighteen percent (18%) per annum or the highest rate allowed under the law, whichever is lower, on any overdue amounts. Licensee also agrees to pay City all reasonable costs and expenses of collection, including attorneys' fees.
4. **Changes in the Use of COA System:** User shall request changes to Schedule A by making formal written application with supporting documentation of need to the Communication Commander of the Atlanta Police Department (the "Commander"). The application for additional units shall be reviewed and approved or denied at the sole discretion of the Commander. The Commander, in reviewing an application, will take into account how any change in User's use of the COA System will affect that system, including but not limited to system loading, airtime usage, and number of system busies, and will make a decision based on maintaining the efficiency and effectiveness of the COA System for all users. Notwithstanding anything to the contrary in the License Agreement, the COA shall have the sole discretion to determine whether it will provide for the addition or modification of User's subscriber units or talk groups.
5. **Purchase and Maintenance of the Equipment:**
 - a) User will be solely responsible for purchasing and maintaining all equipment necessary to be a user on the COA System. The Commander will make available a conforming products list, which will be updated from time to time. It shall be the responsibility of the User to obtain the updated conforming products list prior to requesting the addition of any subscriber units on to the COA System. Products not listed on the conforming products list will not be accepted for use on the COA System.

Such maintenance agreement shall be with a technical company certified to work on the particular types of units in use throughout the term. All maintenance and/or repair work performed on User's subscriber units shall be performed only by such certified technical company. User will supply the name of its maintenance contractor to the COA along with its proof of its certification to work on the particular equipment. User shall be responsible to update the COA in the event of a change in its certified technical company in accordance with the notice requirements of this License Agreement.
 - c) User shall comply with all applicable software security and/or other requirements of the COA. COA shall have sole discretion to determine the configuration of the software on the subscriber units, and User shall not change such configuration.
 - d) If any of User's subscriber units or equipment causes any problems on the COA System, as determined by the Commander, User shall immediately take such units or equipment out of service. Such units or equipment shall not be allowed back on the COA System

until they are repaired and the Commander determines they may be used on the COA System.

6. **Regulatory Requirements:** User will comply with any and all regulations, mandates, requirements, and/or directives issued by any applicable regulatory agencies, including but not limited to the Federal Communications Commission. User understands that the COA is not responsible for bringing User into compliance with any such regulations, mandates, and/or directives and is not responsible for any direct or indirect, tangible or intangible costs, damages, or losses incurred by User as a result of compliance with such regulations, mandates requirements, and/or directives. Notwithstanding the foregoing, User agrees that if the COA determines that it is appropriate for the COA System to comply with the regulations, mandates, requirements, and/or directives in a time period that is shorter than required by any regulatory agency, User agrees to comply within that shorter time period. If User is unwilling or unable to comply with the regulations, mandates, requirements and/or directives within applicable time allowed (either by a regulatory agency or the COA), User agrees its subscriber units shall be removed from the COA System.
7. **Changes to the System:** The COA will have the sole discretion to update or change the COA System. The COA will not be responsible for any expenditure, losses, or other claims incurred by User that are caused by or attributed to such upgrades or changes to the COA System. User shall comply with all requirements resulting from such change within thirty (30) days of receipt of notice from the COA of any upgrades or any other changes to the COA System, including a change in vendor, reconfigurations required by a regulatory agency, fee, or any other COA System changes. User shall pay its pro rata share of the expenses in any change in the System attributable to User's use of the COA System based upon the number of User's units.
8. **Violations of Law:** Alleged violations of any applicable law or regulatory requirements or this Agreement will be reviewed by the Commander. Upon finding a violation has occurred, the Commander in his/her discretion may require the User to remove unit(s) from the System, place the User on probation for a certain period of time not to exceed six (6) months, and take other remedial action. Persistent violations or misuse of the COA System, as determined in the Commander's sole discretion, may result in User being removed entirely from the COA System.

 - a) That it will restrict its use of the COA System to legitimate public safety related purposes of the User. The COA System shall not be used to conduct personal or unrelated business; and

12. Inquiries from Regulatory Agencies: User shall be responsible, at the request of the COA, for responding to or assisting the COA in responding to any correspondence or complaint received by the COA from state or federal regulatory agencies involving User's conduct on the COA System. The COA agrees to use reasonable efforts to maintain and support the COA System, but not User's subscriber units. The COA shall use reasonable efforts to answer questions and facilitate use of the COA System by User. If User receives any inquiries or notices from any regulatory agency regarding use of the COA System, User shall immediately (and in event longer than within three (3) days) notify the Commander of such inquiry or notice. User will cooperate with COA in responding to such inquiry or notice.

13. Indemnification and Hold Harmless: To the fullest extent allowed by law, the User shall defend, indemnify and hold harmless COA, its officers, agents and employees (herein "the COA"), from and against all suits, actions, legal or administrative proceedings, claims, damages, demands, liabilities, interest, attorney's fees, judgments, costs and expenses of whatsoever kind or nature, arising from personal injury or property damage, including, without limitation, those arising out of injury to or death of User's employees, officers, agents (or anyone employed by User), the employee's family members, or any third party, whether arising before or after the term of this License Agreement which allegedly arise out of any intentional bad act or omission or negligent act or omission of the User of any one

The User may terminate this Agreement upon written notice to the COA not less than thirty (30) days prior to the effective date of said termination. - 1. Use of the System:** User shall have the right to access the COA System through use of the number and type of subscriber units as set forth on Schedule A, as amended from time to time in accordance with the terms of this License Agreement. User will limit the number of all subscriber units including, but not limited to, mobile, portable, and console, in compliance with Schedule A. As part of the User’s use of the COA System, the COA agrees to create the talk groups as identified on Schedule B.

2. **Term:** The term of this Agreement shall be for five (5) years, with five (5) additional options of one (1) year renewals at the COA's sole discretion beginning on the effective date above.
3. **Compensation:** User shall pay to COA compensation in accordance with the terms set forth on Schedule C. User will pay a late fee of one percent (1%) per month OR eighteen percent (18%) per annum or the highest rate allowed under the law, whichever is lower, on any overdue amounts. Licensee also agrees to pay City all reasonable costs and expenses of collection, including attorneys' fees.
4. **Changes in the Use of COA System:** User shall request changes to Schedule A by making formal written application with supporting documentation of need to the Communication Commander of the Atlanta Police Department (the "Commander"). The application for additional units shall be reviewed and approved or denied at the sole discretion of the Commander. The Commander, in reviewing an application, will take into account how any change in User's use of the COA System will affect that system, including but not limited to system loading, airtime usage, and number of system busies, and will make a decision based on maintaining the efficiency and effectiveness of the COA System for all users. Notwithstanding anything to the contrary in the License Agreement, the COA shall have the sole discretion to determine whether it will provide for the addition or modification of User's subscriber units or talk groups.
5. **Purchase and Maintenance of the Equipment:**
 - a) User will be solely responsible for purchasing and maintaining all equipment necessary to be a user on the COA System. The Commander will make available a conforming products list, which will be updated from time to time. It shall be the responsibility of the User to obtain the updated conforming products list prior to requesting the addition of any subscriber units on to the COA System. Products not listed on the conforming products list will not be accepted for use on the COA System.
 - b) User warrants that it will have a maintenance agreement in place for its subscriber units. Such maintenance agreement shall be with a technical company certified to work on the particular types of units in use throughout the term. All maintenance and/or repair work performed on User's subscriber units shall be performed only by such certified technical company. User will supply the name of its maintenance contractor to the COA along with its proof of its certification to work on the particular equipment. User shall be responsible to update the COA in the event of a change in its certified technical company in accordance with the notice requirements of this License Agreement.
 - c) User shall comply with all applicable software security and/or other requirements of the COA. COA shall have sole discretion to determine the configuration of the software on the subscriber units, and User shall not change such configuration.
 - d) If any of User's subscriber units or equipment causes any problems on the COA System, as determined by the Commander, User shall immediately take such units or equipment out of service. Such units or equipment shall not be allowed back on the COA System

until they are repaired and the Commander determines they may be used on the COA System.

6. **Regulatory Requirements:** User will comply with any and all regulations, mandates, requirements, and/or directives issued by any applicable regulatory agencies, including but not limited to the Federal Communications Commission. User understands that the COA is not responsible for bringing User into compliance with any such regulations, mandates, and/or directives and is not responsible for any direct or indirect, tangible or intangible costs, damages, or losses incurred by User as a result of compliance with such regulations, mandates requirements, and/or directives. Notwithstanding the foregoing, User agrees that if the COA determines that it is appropriate for the COA System to comply with the regulations, mandates, requirements, and/or directives in a time period that is shorter than required by any regulatory agency, User agrees to comply within that shorter time period. If User is unwilling or unable to comply with the regulations, mandates, requirements and/or directives within applicable time allowed (either by a regulatory agency or the COA), User agrees its subscriber units shall be removed from the COA System.
7. **Changes to the System:** The COA will have the sole discretion to update or change the COA System. The COA will not be responsible for any expenditure, losses, or other claims incurred by User that are caused by or attributed to such upgrades or changes to the COA System. User shall comply with all requirements resulting from such change within thirty (30) days of receipt of notice from the COA of any upgrades or any other changes to the COA System, including a change in vendor, reconfigurations required by a regulatory agency, fee, or any other COA System changes. User shall pay its pro rata share of the expenses in any change in the System attributable to User's use of the COA System based upon the number of User's units.
8. **Violations of Law:** Alleged violations of any applicable law or regulatory requirements or this Agreement will be reviewed by the Commander. Upon finding a violation has occurred, the Commander in his/her discretion may require the User to remove unit(s) from the System, place the User on probation for a certain period of time not to exceed six (6) months, and take other remedial action. Persistent violations or misuse of the COA System, as determined in the Commander's sole discretion, may result in User being removed entirely from the COA System.
9. **User's Covenants and Warranties:** User covenants and warrants:
 - a) That it will restrict its use of the COA System to legitimate public safety related purposes of the User. The COA System shall not be used to conduct personal or unrelated business; and
 - b) User will abide by any and all rules and regulations created by the COA regarding the use of the COA System; and
 - c) That all persons who will be operating subscriber units are properly trained and that no employee who is not properly trained will be allowed to use the COA System; and

11. Rebanding: Intentionally Omitted.

12. Inquiries from Regulatory Agencies: User shall be responsible, at the request of the COA, for responding to or assisting the COA in responding to any correspondence or complaint received by the COA from state or federal regulatory agencies involving User's conduct on the COA System. The COA agrees to use reasonable efforts to maintain and support the COA System, but not User's subscriber units. The COA shall use reasonable efforts to answer questions and facilitate use of the COA System by User. If User receives any inquiries or notices from any regulatory agency regarding use of the COA System, User shall immediately (and in event longer than within three (3) days) notify the Commander of such inquiry or notice. User will cooperate with COA in responding to such inquiry or notice.

13. Indemnification and Hold Harmless: To the fullest extent allowed by law, the User shall defend, indemnify and hold harmless COA, its officers, agents and employees (herein "the COA"), from and against all suits, actions, legal or administrative proceedings, claims, damages, demands, liabilities, interest, attorney's fees, judgments, costs and expenses of whatsoever kind or nature, arising from personal injury or property damage, including, without limitation, those arising out of injury to or death of User's employees, officers, agents (or anyone employed by User), the employee's family members, or any third party, whether arising before or after the term of this License Agreement which allegedly arise out of any intentional bad act or omission or negligent act or omission of the User of any one

Further, if the User fails to fulfill any of its obligations, the COA may, by giving written notice to the User, terminate the Agreement with said User for such default. The User may terminate this Agreement upon written notice to the COA not less than thirty (30) days prior to the effective date of said termination. The license granted under this License Agreement is not intended to and does not grant to User any property interest in the COA System nor does the COA make any warranties of any kind related to the equipment and service hereunder

15. Adherence to Grant Requirements: The Parties acknowledge and agree that from time to time activities related to this License Agreement may be funded with money from grants from the federal or state government or other sources.
