Bridge Response Initiative Update

LIFT 2.0

Rapid Housing Update

# KEY FINDINGS

The overall number of homeless neighbors has decreased by **30%** since our first PIT Count in 2016

Since 2016, we've housed over 12,500 neighbors, with **2,000** households housed in 2023 alone

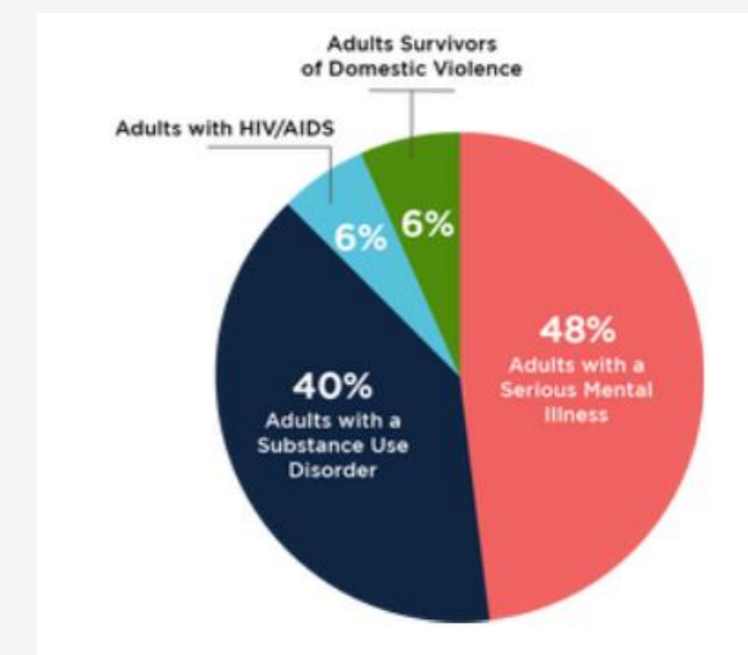

**4821**  
**NEIGHBORS**  
were in permanent housing the night of the count

**7%** increase in the total number of individuals experiencing homelessness in Atlanta.

**41%** increase in unsheltered homelessness

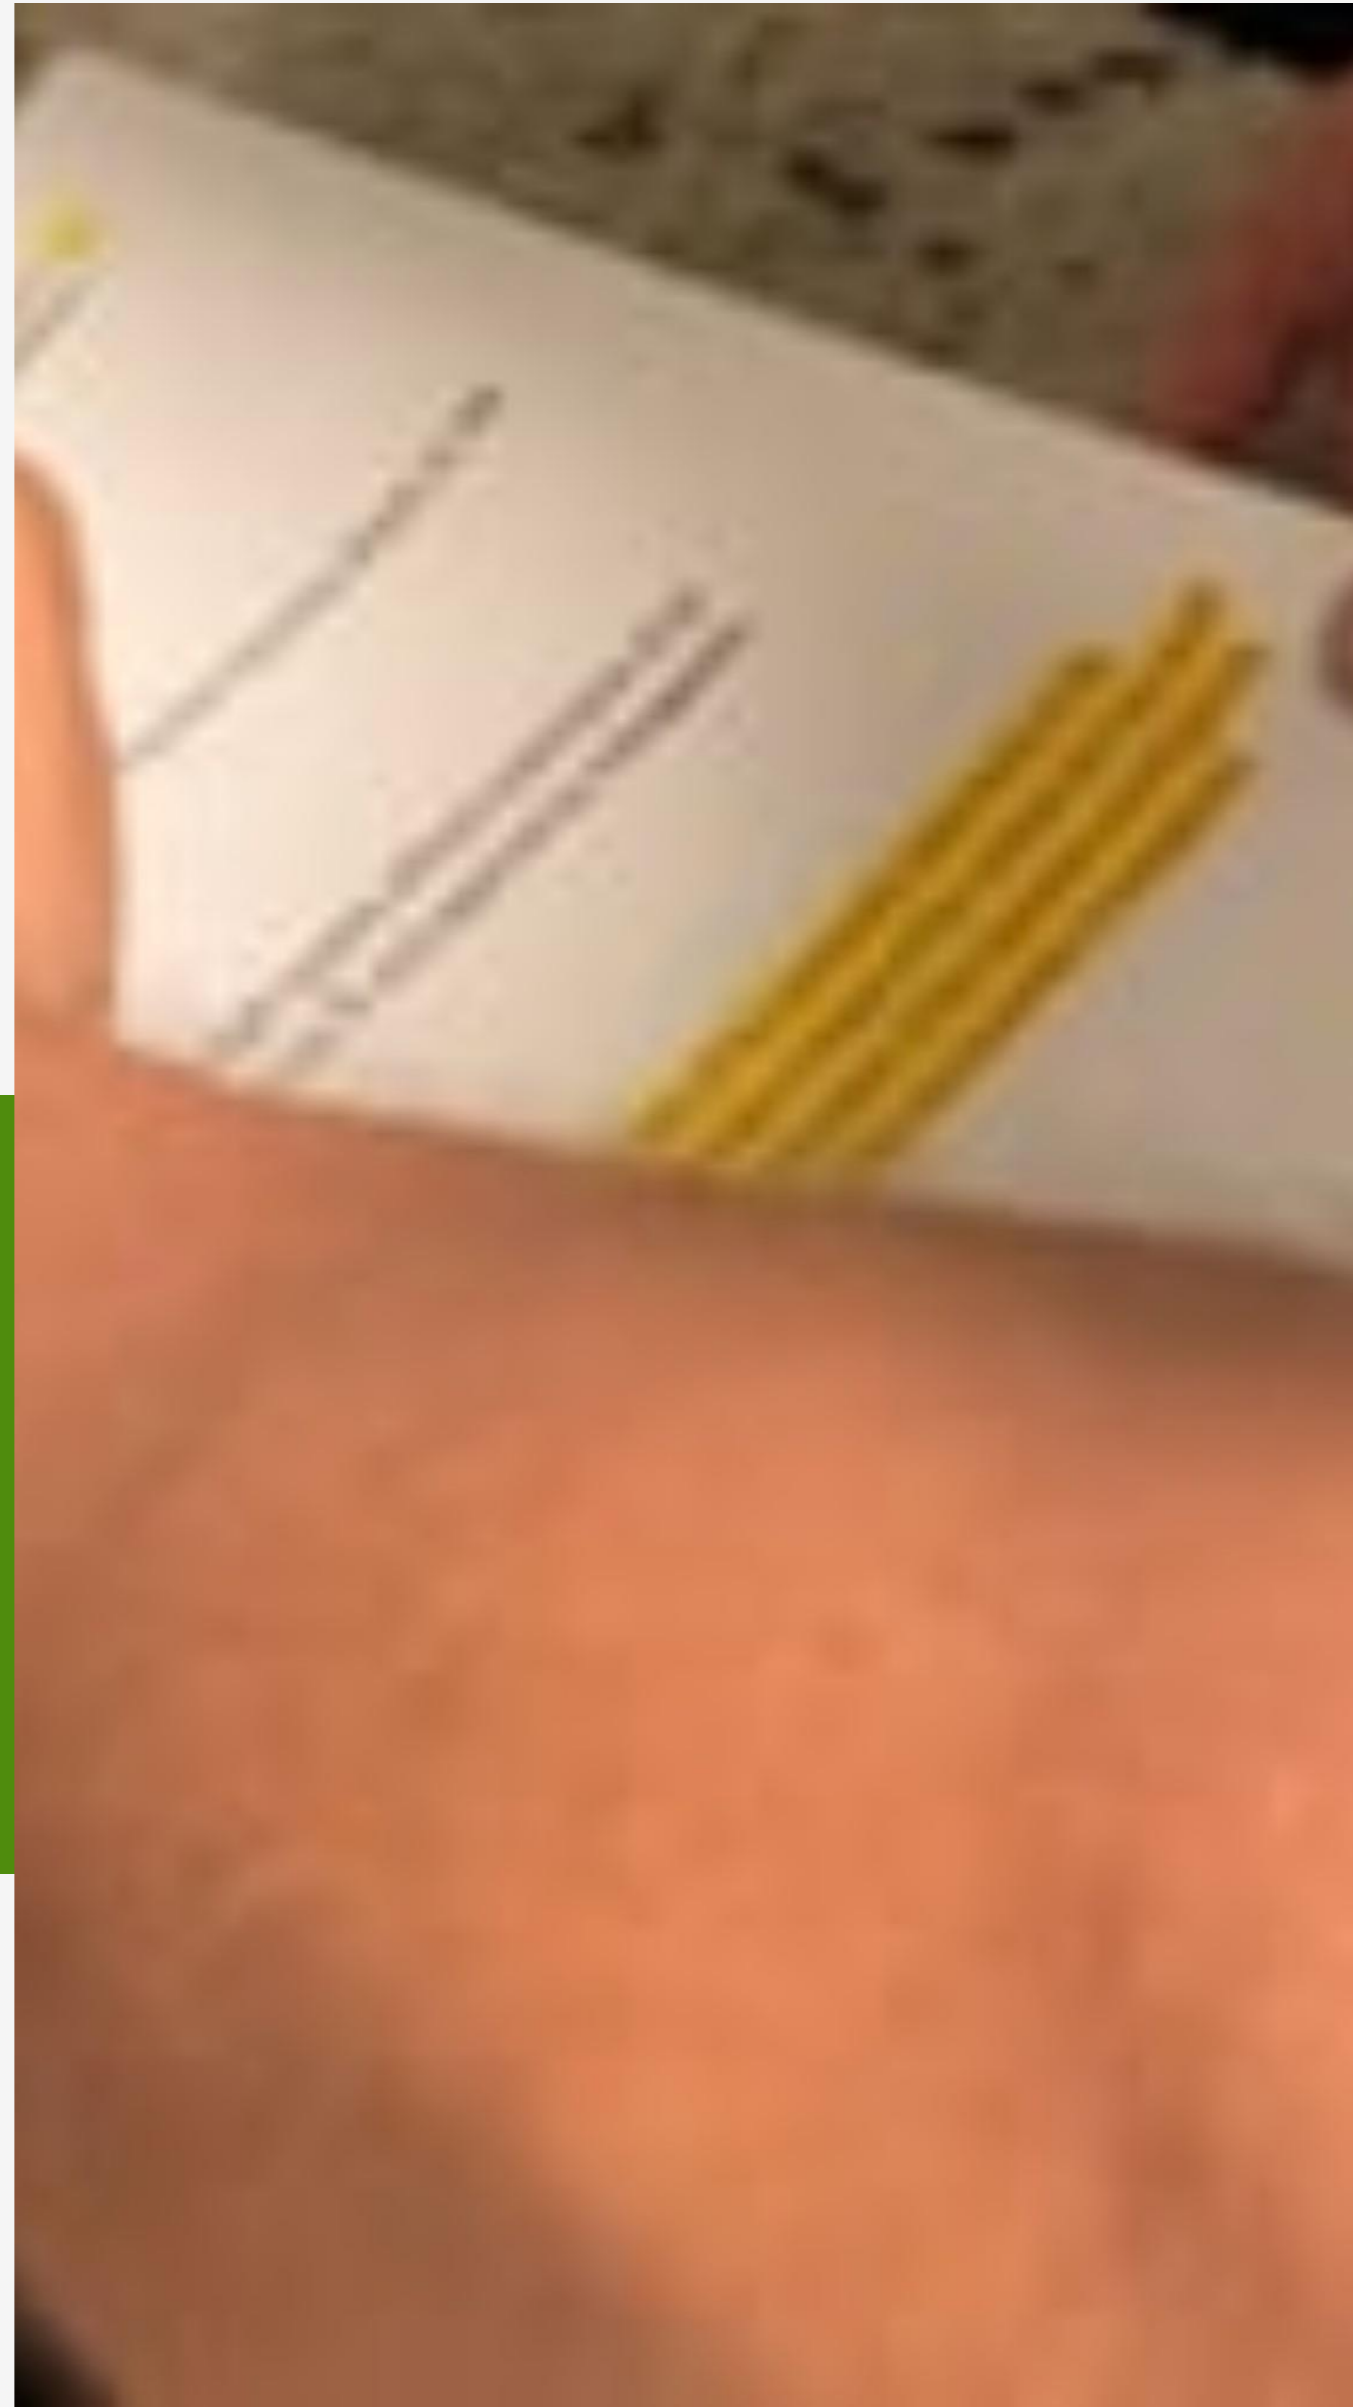

**22%** decrease in the number of adults with children experiencing homelessness.

**35%** of adults experiencing homelessness are over the age of 55

**48%**  
of adults with a serious mental illness

WELCOME HOME!

**HOME**

LIFT 2.0 has **housed 1,553**  
unsheltered or chronic households,  
surpassing the **initial target of 1,500**  
households by December 31, 2024.

**LIFT 2.0 GOAL SURPASSED!**

# COOPER STREET UPDATE

We've been actively engaged in this area for over a year, and several factors have led to us prioritizing it again, including

- the camp's growth
- incidents of crime and violence,
- our responsibility to address neighborhood concerns—particularly regarding public safety and health issues.

Our goal is to compassionately close the encampments, and our timeline aims for mid to late September for the Cooper Street encampment.

To date, we have housed 64 individuals from the encampment.

# PRYOR STREET UPDATE

Pryor Street has always been a priority for us due to the area's geography and the size of the encampment. While reported crimes are a concern, our focus is on addressing the situation comprehensively with creative solutions.

Our goal is to ensure that everyone in the encampment can be rehoused and that the site can be successfully closed

We have begun the assessment and engagement of individuals there.

The property is owned by Georgia DOT who is taking the lead on plans for mitigation in the area.
