

Atlanta Public Safety Training Center

Current Site Plan

LEGEND

- A** LEADERSHIP BUILDING / AUDITORIUM
+/- 18,000 SF
- B** ADMINISTRATION / CLASSROOM BUILDINGS
+/- 50,000 SF
- C** NATURE TRAIL
- D** QUAD / PT FIELD / PAVILION
- E** HORSE BARN
+/- 20 STALLS
- F** PASTURE
- G** KENNEL
- H** CONTROLLED ACCESS
- I** SHOOTING RANGE
- J** TRAINING FIRE STATION
- K** CLASS A BURN BUILDING
- L** REAL-WORLD TRAINING CENTER
 - CONVENIENCE STORE
 - HOTEL
 - NIGHT CLUB
 - HOUSE
- M** VEHICLE SKILLS PAD
- N** SKID PAD
- O** EVOC
- P** EVOC STORAGE
- Q** GYMNASIUM
- R** STORMWATER DETENTION
- S** FUTURE PUBLIC PARK LAND
- T** PUBLIC PARKING AT TRAILHEAD
- U** EXISTING BUILDINGS
- V** TO MICHELLE OBAMA PARK
- W** 100'+ LANDSCAPE BUFFER
- X** ROAD IMPROVEMENTS
 - 10' WIDE MULTI-USE PATH
 - STREET TREES / LIGHT POLES

Community Stakeholder Advisory Council Recommendations

Facilities

- Relocation of firing range to the most southern portion of the site
- Noise Analysis and sound mitigation around the firing range
- Ensuring new firing range meets all EPA standards for quality
- Revision of EVOC course grading to allow natural terrain to buffer sound
- Removal of explosives from the site

Community Use and Programming

- Addition of pavilion and parade field for community use
- Meeting space for community groups
- Develop partnership with neighboring schools and youth organizations

Appearance

- 100ft minimum tree buffer along residential facing areas
- Removal of invasive plants to preserve native species

Security

- Addition of security cameras and LPR's around the site and neighborhoods
- Addition of streetlights around the facility

Infrastructure

- Move main entrance to Constitution Road
- Sidewalks around the facility to provide residential access
- Addition of public parking at the site

- In February 2023, Mayor Dickens established the **South River Forest and Public Safety Training Center Task Force** to seek further community input and expert recommendations on key issues.
- The Task Force members were assigned to a specific subgroup to study and make recommendations in four areas:
 - Parks and Greenspace
 - Visioning, Memorializing, and Repurposing, the former Atlanta Prison Farm Site
 - Sustainability and Resilience
 - Police, Fire and E-911 Training Curriculum
- In August 2023, the Task Force submitted 102 recommendations in their Final Report.
- The recommendations received the full acknowledgement and support from Mayor Dickens and are serving as the cornerstone for our city's various offices and departments for implementation.

*"We have a once-in-a-generation opportunity to invest in our vital public safety needs and establish the largest park the City of Atlanta would own," **Mayor Dickens said.** "I want the community at the head of the table, sharing their expertise and aspirations. I look forward to receiving recommendations which will continue to inform the Training Center and the parks, trails and community spaces our communities can be proud of."*

[About](#) [Location](#) [Community Engagement](#) [Resources](#)

The Atlanta Public Safety Training Center

The City of Atlanta is building a new public safety training center to support its need for dedicated training space with modern facilities for personnel. The new center will allow sworn officers, civilian responders, firefighters, EMS, and E-911 staff to train locally and collaboratively, using modern philosophies and methodologies rooted in harm reduction.

The center is located in the South River region of DeKalb County, on 85 acres of land owned by the City of Atlanta. Because of its ecological importance, this area has been identified as one of the ["Lungs of Atlanta"](#) and the city remains committed to its preservation through responsible stewardship now, and into the future.

Construction of the Public Safety Training Center will help inject new energy into efforts to make this area accessible to Atlanta residents and visitors. In fact, with the removal of thousands of illegally discarded mattresses, tires, and other environmental hazards, significant improvements have already been made to the area.

Input from surrounding neighborhoods and guidance from community members across Atlanta has been crucial to the project's development. Recommendations from community groups have led to plan improvements like relocating entry points for improved traffic flow in neighborhoods, increasing sound barriers to reduce noise pollution, memorializing past uses of the land, ensuring that trail access will be inclusive, and more. [Click here](#) for additional information about community engagement in the planning process and for the [final reports](#) from the [Community Stakeholder Advisory Committee \(CSAC\)](#), and the [Public Safety Training Center Task Force](#).

Occupancy of the center is projected to begin in late 2024.

About

Learn more about why Atlanta needs a new training center, including what will and won't be there, and current plans for buildings, greenspace, and training curricula.

Location

Learn more about why this site was chosen, the history of the area, and previous land uses.

Community

Learn about community involvement in shaping plans for the training center, public safety training curricula, green space, sustainability, and memorializing previous uses of the land.
