Creative Industries Fund

A joint pilot program launched by the Mayor's Office of Film & Entertainment and Invest Atlanta to assist our city's independent content creators and creative entrepreneurs. The program offers loans with low interest rates and flexible repayment terms for local creatives in Film, Music, and Digital Entertainment to use for the following:

- Production
- Post-Production
- Marketing Outreach
- Distribution
- Touring/Festivals
- Prototype Development
- Product Development
- Sales and Attractions

Film Monitor Program

In response to community concerns with on-location filming, particularly in neighborhoods that are popular with filmmakers, the Mayor's Office of Film & Entertainment is working towards creating a Film Monitor Program.

Monitors will be AMOFÉ's eyes and ears on the street assigned to sensitive filming locations to provide community members and film production companies third-party support throughout the filming day.

Monitors to be assigned to on-location film productions to compliment location managers by serving as "ambassadors" and a point of contact for residents and business owners who may have concerns or questions about the filming process.

Monitors will serve as a liaison between AMOFÉ and production companies.

Monitors will work to make sure filmmakers work within the terms of their permit and when necessary communicate to AMOFÉ changes and/or extensions needed to active permits.

Monitors will interact with the public and production companies to resolve issues such as parking of production vehicles, noise concerns, production equipment blocking driveway access and making sure the area is left clean or in a better condition than when crews arrived.

Monitors will be trained by AMOFÉ production team and education partners.

Monitors' service will be paid by production company (subject to ordinance updates).

THANK YOU!
